EXAMINER'S AMENDMENT

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/24/10 has been entered.

Claims 1-30, 45, 48, 56 and 57 have been cancelled. Claims 31-42, 50-53 have been withdrawn. Claims 43, 44, 46, 47, 49, 54, 55, 58 and 59 are under examination.

Withdrawn Rejections:

Claims 43, 44, 46-49, and 54-59 were rejected under 35 U.S.C. 112, first paragraph. Applicant has amended the claims to overcome this rejection. Accordingly, the rejection is withdrawn.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interviews with Donna Holguin on 3/31 and 4/4/11.

The Examiner notes a nonstatutory double patenting rejection with claims 31-42 and 50-52 of later filed divisional application 12/417087 because method claims are being rejoined in the instant application. However, as per MPEP 804, that rejection is not being made in order to allow the instant application to issue. "If a "provisional" nonstatutory obviousness-type double patenting (ODP) rejection is the only rejection remaining in the earlier filed of the two pending applications, while the later-filed application is rejectable on other grounds, the examiner should withdraw that rejection and permit the earlier-filed application to issue as a patent without a terminal disclaimer."

Rejoinder of Withdrawn Claims

Claims 43, 44, 46, 47, 49, 54, 55, 58 and 59 are allowable. The restriction requirement between product and process claims, as set forth in the Office action mailed on 12/10/08, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 50, directed to a process for treating addiction is no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 31-42 and 53, directed to methods of treating neurointoxications and process for manufacturing an inhalable medicament remain withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may

Art Unit: 1613

be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

The application has been amended as follows:

In the claims:

Claims 31-42 have been cancelled.

In claim 44, line 2, "comprises" has been deleted and --- is --- has been inserted.

Claim 50 has been deleted and replaced with --- A process for treating addiction wherein the addiction being treated is addiction to amphetamines comprising administering to the patient in need thereof via inhalation a composition according to claim 43. ---

Claims 51-53 have been cancelled.

In claim 54, line 2, "comprises" has been deleted and --- is --- has been inserted.

In claim 58, line 2, "comprises" has been deleted and --- is --- has been inserted.

In claim 59, line 2, "comprises" has been deleted and --- is --- has been inserted.

Reasons for Allowance:

The following is an examiner's statement of reasons for allowance: The art does not teach or suggest, alone or in combination, a composition consisting of the combination of xenon and nitrous oxide at the specific amounts instantly claimed or the application of the composition in

Art Unit: 1613

treating amphetamine addiction. This is a new concept. Therefore, the indicated claims are deemed free of the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 43, 44, 46, 47, 49, 50, 54, 55, 58 and 59 [renumbered as 1, 2, 3, 6, 7, 10, 4, 5, 8 and 9 respectively].

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ERNST ARNOLD whose telephone number is (571)272-8509. The examiner can normally be reached on M-F 7:15-4:45.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Kwon can be reached on 571-272-0581. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
